FEDERAL COMMUNICATIONS COMMISSION  
OFFICE OF THE SECRETARY

RE: LPFM

January 19 2000

Dear Commissioner Harold Furchtgott-Roth

I am a supporter of Low Power FM radio service and recently it came to my attention that the FCC intends to vote on the creation of this much needed community service at its January 20<sup>th</sup> meeting.

It is very important that the 2nd & 3rd adjacent channel requirements be dropped for LPFM or else many large cities will not have such stations which local coverage is most needed.

LPFM stations are excellent tools for the proliferation of local talents and businesses. For the first time, many such businesses will be able to affordably advertise their services and products on LPFM radio stations.

Therefore, it is very important to allow LPFM stations to sell at least some advertising time to support local small businesses and to generate enough funds to pay for operating expenses.

There is no reason to prohibit LPFM stations from selling advertising time to generate operating funds.

Please kindly vote yes for LPFM and do not disregard the thousands of supporters who filed positive comments in Docket 99-25.

Sincerely

Vasken Samuelian
